S-E-C-R-E-T

28 August 1956

MEMORANDUM FOR: Chairman, Guided Missile Intelligence
Committee (GMIC)

FROM : Chairman, Ad Hoc Subcommittee for
Guidance to REG

SUBJECT : Supplemental Questions to REG Initial Questionnaire

1. The Subcommittee has prepared the attached list of
supplemental questions to the REG Initial Questionnaire which I
am forwarding to you for Guided Missile Intelligence Committee
(GMIC) consideration.

25X1A

2. You will recall that on your recent trip ████████ the
REG center agreed to include certain additional questions provided
by GMIC in their initial interrogation ██████████████ The
Subcommittee has revised somewhat the list which was originally
provided you for informal discussions.

25X1C

3. Should GMIC approve the transmittal of the attached
list of questions to REG it is recommended that the memorandum
of transmittal emphasize that the grading of the source's knowledge
is not an attempt to supercede the standard format, but is merely a
suggestion for facilitating the preparation of additional requirements
by Headquarters analysts.

RICHARD L. HALEY
Captain, USA
Chairman

Attachment:
  Supplement to REG Personnel
  Interrogation Report (PIR)

S-E-C-R-E-T

ARMY Declass/Release Instructions On File

SUPPLEMENT TO REG PERSONNEL INTERROGATION REPORT (PIR)

25X1C

1. The following questions are designed to elicit maximum
preliminary guided missile information ▇▇▇▇▇▇▇▇▇▇▇▇▇
Responses to these questions will provide intelligence information
of an immediate operational value and information which will assist
intelligence analysts in devising specific requirements to facilitate
comprehensive interrogations.

25X1C

2. All questions should be addressed ▇▇▇▇▇▇▇▇▇▇
It would be extremely valuable if the bases for each source's response
be indicated by a symbol, eg:

A. Direct knowledge of source.

B. Source's deductions or opinions based on facts.

C. Soviet opinion or comments.

D. Hearsay information from non-Soviet sources.

25X1C

3. General questions ▇▇▇▇▇▇▇▇▇

(a) Do you know of any operational Soviet guided missile?
If so, give type, Soviet designation, and all known operational
characteristics.

(b) What missile work have you been engaged in since 1951?
Indicate dates and locations.

(c) What are the design performance characteristics of the
missile project on which you worked (i.e., range, speed, size,
type of warhead, type of propulsion, type of guidance, etc.)?
Provide any actual performance figures.

S-E-C-R-E-T

(d) What developmental stage had been reached, i.e., completion of design, developmental test, operational evaluation, training, or operational deployment? Where and when did each of these developments take place?

(e) Give information on any Soviet missile production, experimental, prototype, and series facilities? To what extent are you familiar with Soviet missile production practices, e.g., lead time, rates, use of manpower, materials, etc.?

(f) Who were the Soviet personalities in the missile program, (including organization symbols) and what were their functions? Provide an organizational chart of 25X1C ▮▮▮▮▮ covering the Section level and above and identify the German and Soviet organizational heads. 25X1C

(g) Identify any non-German or non-Soviet personnel ▮▮▮▮▮

(h) What Soviet organizations (Ministry, Directorate, Military service) directed, controlled, or exhibited interest in missile developments?

(i) With what Soviet missile flight test ranges are you familiar? Indicate type of tests conducted at each. This information on

(j) Do you know of any other Soviet guided missile research and/or development activities (R&D, training, operational, etc.)? If so, identify as to location and activity.

What are the telemetering frequencies and characteristics employed?

range instrumentation, including characteristics and frequencies of any telemetry systems employed.
